Time Keeper Initials

All Players must have the opportunity to play a minimum of half of the time they are available for a game. If the player is pulled back to the bench, the players time DOES NOT count -- it counts only if the player enters the field or the quarter has run out and the player starts the next quarter

Playing time: All players should have the opportunity to play a minimum of half the game.

If a player arrives late, that player should play the half of the time available.

Playing starts at sub line

If the player is pulled back to the bench, the player's time DOES NOT count - it counts only if the player enters the field or the quarter runs out.

Passers play 10 minutes, Wings 12 minutes, Striker & Kickers play 15 minute quarters

1) The time keeper shall record playing time for each player from the opposing team during each quarter of regulation play.

2) Notify coaches of players who have not fulfilled their 1/2 game playing requirements at (1) half time and (2) the end of the 3rd quarter.

Directions: (12 minute quarters as the example) Keep a running total!

All players that start the game start with 12 in the top box. If they come out enter the time that they leave the field. Let's say #8 started the game and came out at the 9 minute mark: example:

8	In at	12	8
	Out at	9	0
	Played	3/3	8/11

The player #10 went in for #8. She got to the sub line at the 10 minute mark so #10 would look like:

10	In at	10	12
	Out at	0	7
	Played	10/10	5/15

So you log the time the players GO IN and when they come out. In 4 quarters these players (12 minutes/quarter) should be at least 24 minutes of playing time.

If a player goes in and out and back in during the same quarter-the log should look like:

16	In at	12 -- 4	12 -- 3
	Out at	8 -- 0	8 -- 0
	Played	8	7/15

Extra slots for teams that have more than 15 players
