# 2014 SCORE® SOCCER CATALOG

We are excited to introduce this year's soccer catalog. We have added a few different elements and we hope you enjoy them. In addition to the excitement of introducing our new line-up, you will notice new editorial pieces about the World Cup games of the past, new tools to make your job a bit easier, and an exciting new partnership with a great organization.

We wanted to pay tribute to the upcoming 2014 World Cup games to be hosted in Brazil (the native country of our founders). We are all eagerly awaiting the approaching start to the games in June where the world comes together for one of the greatest events and spectacles in all of sports.

In addition you will see new and improved fabric information, sizing and color information, order guides, tips and additional tools all aimed to making your job easier. You will find links to our website, social media pages and information about our SCORE Sports app.

Last but not least, in conjunction with our release of the new Camo USA Jersey, we would like to announce our partnership with Homes for Our Troops. We wanted to take this opportunity to give back to all of the amazing brave men and women who fight and protect this great country every day. You can read more about this outstanding organization and our partnership on page 16.

We are excited to begin a new chapter in our company's history. We anticipate 2014 being a great year at SCORE and we invite you to join in our experience. We consider all of you to be a part of the SCORE family and we hope, as you take this journey through our new catalog, that we exceed all of your expectations.

## Historical Facts:

- Highest scoring game Uruguay (8) vs. Bolivia (0)
- Debut Appearances: England
- First World Cup played since 1938 (due to World War II)
- Italy automatically qualified by winning in 1938, however they hesitated returning to the games as they lost most of their starters in the Superga Air Disaster accident. Once they committed to playing they decided to travel to Brazil by boat.
- During qualifications Argentina withdrew from the games due to their dispute with the Brazilian Football Confederation.
- The Brazilian organizers proposed a new format for the games - the top team from each group advances to the final stage of a round-robin tournament to determine the winner
- Final stage teams were Brazil, Spain, Sweden & Uruguay

## Featured Image:

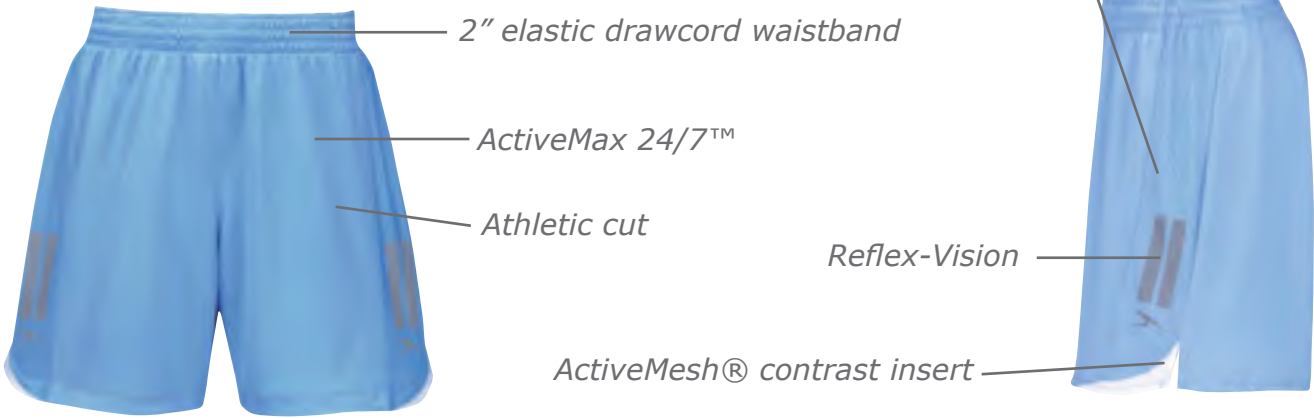

The image shows the Maracana Stadium in Rio De Janeiro, Brazil. On July 16, 1950, Brazil and Uruguay played in front of a record breaking crowd of approximately 205,000 spectators. To date, no game has broken this attendance record. Brazil lost the most anticipated game of the tournament to Uruguay. Making Uruguay the champions. The upset was tremendous since Brazil was the clear favorite to win.

## Homes for Our Troops

At SCORE Sports we recognize and appreciate the sacrifices made by veterans, active military and their family members. As our company is rooted in the USA we want to show our support for those who have fought for our country.

With the launch of our camouflage jersey a portion of each jersey sale will be donated to Homes for Our Troops. The donation will go towards building homes for severely injured Veterans and their families.

Facts on Homes for Our Troops...

- The homes provided by Homes for Our Troops are given at no cost to the Veterans
- Only 9.6% of revenue has been spent on overhead since its inception in 2004
- Over 150 homes have been built thus far with over 20 currently in progress

By purchasing the camouflage jersey for yourself or your team, you can help build homes for our Veterans.

To learn more about Homes for Our Troops visit [hfotusa.org](http://hfotusa.org).

# SCORE® FABRICS

Our SCORE® Fabric Engineers work year round to test and develop fabrics that provide ease of movement on the field, along with comfort from excess sweat. Our fabrics have moisture wicking properties that help with evaporation of moisture during the game, to give the athlete the comfort they need during performance. Our research and development team analyzes various elements using the latest technology as well as providing results to our engineers to assist in their fabric development. We go through environmentally conscious color treatments that allow our fabrics to be dyed using organic, water-based inks. Taking these measures allows us to minimize our environmental footprint.
