## **2. LEAGUE-SPECIFIC OFFENSE RULES**

- A During the first 6 innings of a game a half-inning will consist of 3 outs or teams will be limited to 5 runs per inning, unless the offensive team is behind by more than 5 runs. In this case, the offensive team can score enough runs (catch-up runs) to tie the score.

During the first 6 innings of a game ALL runs scored on any play that results in the 'catch-up run' of that half-inning will count as runs scored.

During the first 6 innings of a game ALL runs scored on any play that results in the 5<sup>th</sup> run of that half-inning, regardless of if that team is ahead or behind in the score, will count as runs scored.

During the 7<sup>th</sup> or any extra inning of play, a half-inning will consist of 3 outs with no limitation on the number of runs scored. If a game is tied after the completion of the 7th inning, any extra innings will be played following the international tie breaker rules.

- B. Base stealing is allowed for all bases. However, base runners must remain in contact with the base until the ball leaves the pitcher's hand. If a runner leaves a base too soon, the ball will become dead, a "no pitch" will be declared and the runner will be called out. All other runners will return to the base they were at when the infraction occurred.
- C. A player unable to finish a game may miss a scheduled turn at bat without penalty provided it is reported to the umpire prior to the scheduled at bat. Failure to report could result in a "batting out of order" appeal by the defensive team. Players injured during a scheduled at bat will be replaced by the last recorded out. That player will resume the existing count and finish the at bat and/or become the base runner. The original batting order (less the injured player) will resume for the remainder of the game.
- D. A team playing with 8 players will not receive an automatic out for having less than 9 players in the batting order, unless a team is playing with less than 9 players due to a player being ejected from a game.
- E. A pinch runner may be used anytime during the game when the catcher or the pitcher is on base. The runner must be the player who was the last out or last batted out. For this purpose the 'catcher or pitcher' are defined as the 'starting catcher and/or pitcher' for the next defensive ½ inning.
- F. All batters **MUST** use a batting helmet that includes a face mask.

### **3. LEAGUE-SPECIFIC DEFENSE RULES**

- A. A team must field a minimum of 8 players.
- B. A player is allowed to pitch an unlimited amount of innings per game. Innings need not be consecutive. A time out called by a Manager or Coach for a second conference with a pitcher in 1 inning automatically requires a change of pitchers.
- C. A pitcher who hits 3 batters with pitched balls in the same inning must be removed from pitching for the balance of that inning. She may return to pitch in subsequent innings as long as she is within the inning limits described above in Section 3. B.
- D. All pitchers must comply with NSA pitching regulations. The windmill or slingshot pitching style may be used in addition to the basic underhand delivery.
- E. **INTERNATIONAL TIE BREAKER:** This rule will be used in tie games, in extra-inning games, or after the time limit expires, whichever comes first. At the top and bottom of each extra inning, each team starts with a runner on second base. The base runner will be the last scheduled batter of the inning (if every player were to bat once). Game continues playing regular rules until the tie is broken.

### **Rules for Orange Safety Bases**

#### **Softball & Baseball Rules for Orange Safety Bases**

In youth softball and baseball, one integral step toward safety is the use of the safety base at first. This innovation leads to fewer collisions along the base line and less risk of injury. The first baseman makes the play by standing on the original base while the runner will run over the orange safety base.

#### **Description**

The safety base is built as two standard bases in one. A standard baseball or softball base measures 15 inches by 15 inches. A safety base measures 15 inches by 30 inches. Half the base is the standard white color and the other half is fluorescent orange.

#### **Placement**

The safety base is used only at first base and is placed directly on the first base foul line. The white portion of the safety base is placed inside of the foul line - in fair territory, the orange half is placed in foul territory.

#### **Rules**

The safety base is designed to prevent collisions and other contact incidents at first base. The first baseman and other defensive players are only allowed to touch the white portion of the safety base during play. If a defensive player's foot touches the orange portion of the base, the umpire may call interference and award the runner a free base. This is an umpire's judgment call.

The orange base can be used by the fielder if the throw is coming from foul territory. In this case the runner would use the white base.

On offense, the batter runner must use the orange portion of the base during infield or close plays. Because a batter runner is allowed to run through first base, he/she must run straight through the orange half, remaining in foul territory. If he/she touches the white half on a play at first, the defensive team may appeal the play. If the umpire noticed the runner's foot placement, he/she will be called out. If there is no play to be made at first base, such as on a hit that will result in a double or better, the batter runner may touch the white half of the base while making the turn toward second. Batted balls that hit the white portion of the base are fair, while balls that hit the orange half are foul.

#### **Summary**

The use of the safety base not only limits potential dangerous collisions at first but also incidences of ankle injuries caused by one player stepping on another's ankle as they both stretch for the same base. When the first baseman has his/her foot on the white, and the runner sprints over the base, there's a chance of the runner rolling his/her ankle by stepping on the first baseman's foot.
