

Coastal United Soccer Association Join UC Sampdoria North American Academy

May 7, 2014 – UC Sampdoria of the Italian Serie A have agreed to a partnership with the North Carolina based soccer organization Coastal United Soccer Association.

Coastal United coaches and players will have the opportunity to work with the Academy coaches of UC Sampdoria in both North America and Italy, offering an insight into the player development program of one of the top Italian soccer academies. The partnership will provide players and coaches unparalleled access to a club renowned for producing Champions League players.

The partnership will see UC Sampdoria North American Academy hosting a series of Elite Player ID events with Coastal United. UC Sampdoria will send Academy staff members over to work with Coastal United players at these events. The best male and female players at these events will be invited to attend the UC Sampdoria Elite Player Tour at our Academy in Genoa, Italy.

Dan Mowry - Director of Coaching: *“Coastal United is extremely excited for this opportunity to partner with UC Sampdoria. We are always looking for avenues for our players and coaches to grow and develop. Introducing our coaches to the Sampdoria Academy Staff and have our players be identified by a professional club is an amazing opportunity.”*

Global Image Sports and UC Sampdoria are very impressed with Coastal United, and are excited about a long and successful partnership.
