

BG Bison Parent/Athlete Clinic

INTERACTIVE

This clinic is an interactive clinic, meaning that you and your athlete will be engaging in the activities together!!

COACHING STAFF

You and your athlete will be coached by the varsity football staff of Buffalo Grove High School, covering basic skills and techniques needed to be a successful football player.

IS THERE A COST?

The cost will be \$10.00 per participant in order to cover the cost of clinic T-Shirts. Checks should be made payable to Buffalo Grove High School.

The Buffalo Grove Bison football staff would like to invite parents and their athletes to the Bison Parent/Athlete Clinic. This clinic is for players from 3rd through 8th grade. Parents and players **both** learn the basic drills that will help promote skill development in the game of football. The object is for both player and parent to participate so that after the clinic, players and parents can continue to develop their player's skill level from the drills that they both learned during the clinic. The hope is that after participation, parents and players will not only learn new skills and drills, but be able to work on these things together...while having FUN!!!

We hope you will consider joining us!!
