

December 2025

# TAYSA TALK

## UPDATES AND CURRENT NEWS FROM TAYSA

### Field Expansion Update

- Site plan finalized, pending state review
- Met with State Representative Scarsdale and State Senator Cronin, received letter of support from both
- Bi-monthly meetings as a member of the Town of Townsend Conservation Restriction Committee, working to create endangered species habitat protection in perpetuity
- State permitting process: Hired LEC, started in Nov, will take approximately 4 months to complete
- Met with a local non-profit focused on youth sports that is interested in funding the lightning structure & snack shack
- TAYSA has requested a 50 year lease of Squannacook Meadows from the Town of Townsend. The request will be brought to the next Special Town Meeting for voter approval, date not yet known. This longer lease will allow for TAYSA to apply for more grants to help fund the field expansion.
- Next steps: meeting with NHESP for their review of the site plan, pursuing grant opportunities
- Did you know? Because Squannacook Meadows is a State listed endangered species habitat, all project work must take place between November 1 - March 15, or additional permitting and habitat disturbance mitigations must be applied for.
- Questions? Want to help? Email [vp.taysa@gmail.com](mailto:vp.taysa@gmail.com)

### Dates to Remember:

- Dec 9 6:30pm TAYSA monthly meeting, all welcome to attend!
- Winter Training starts January 5<sup>th</sup>!
