## Introduction

This guide will help you understand what steps need to be taken in order to successfully claim your SportsEngine Account and fulfill all of your Eligibility Requirements laid out by US Club Soccer. These processes can only be completed once your organization has purchased a membership for your athlete.

## SportsEngine Households & Accounts

After your US Club Soccer Club sends your player's information to US Club, you will receive an email from SportsEngine that asks you to claim that Household.

A "SportsEngine Household" refers to how your SportsEngine Account and Profiles will be setup. A Household encompasses both the Account Owner and the Player Sub-Profiles that are under the owner of the account.

- **Account Owner:** The owner has access to sign in to the account, edit account information, and manage other sub-profiles. The owner **must be over the age of 13**, and is considered the Parent/Guardian of the athlete sub-profiles.
- **Sub-Profiles:** The sub-profiles are the athletes that live under the owner of the account. These profiles are tied to registrations and roster spots.

**NOTE:** Click [HERE](#) to learn more about the difference between the two.
