

SBYBS families - after reviewing the latest guidance from Governor Scott, Little League International and our local Parks & Rec, the decision has been made to cancel the 2020 Spring Baseball and Softball season.

While this decision may come as a disappointment, it is in the best interests of players, coaches, umpires and families to follow the guidance provided and suspend planning for a regular season schedule.

Refunds will be provided to all registered families, minus a three dollar processing fee that cannot be recovered. Your patience is appreciated as we work with our registration system and hosting providers to process refunds.

We will continue to monitor guidance from state and local officials and are open to a modified Summer ball season if league activities can be safely organized, up to and including participation in a modified District All Star tournament.

Thank you for your continued support for SBYBS. We miss our players and families and cannot wait to return to the field with you all.
