## **2019-2020 Financial Aid Requirements**

Lakefront Soccer Club is committed to fostering all motivated players to achieve their goal to be the best soccer player at their level of play. LSC understands the financial commitment that is incurred by families in travel soccer, and we would like to assist players and their families requiring financial assistance in a way that will benefit the player, their family and LSC.

While our goal is to assist each individual player who has requested financial aid, we cannot guarantee that all requests will be accepted. Requests will be granted subject to the amount of requests that are received as well as the amount of funds that LSC has made available at the time of requests. Each request will be taken into consideration on an individual basis depending on need, household income and the ability to repay all or portion of what is requested through volunteering and/or fundraising.

Volunteerism – The amount of hours that is required will correlate with the amount of scholarship money that is approved.

Fundraising – Regardless of amount granted to each player. Each scholarship recipient is required to participate in all club-wide and team fundraising.

Because scholarship funds are limited, LSC needs to ensure that all who receive financial aid will be a productive participant in this sport. LSC requires before granting a request that each individual player be evaluated by the coaching staff.

Requests for financial aid must be submitted within 30 days of acceptance on a team. Scholarships do not cover the registration fee or uniform fee.

It is the goal of the LSC to provide soccer opportunities to all children regardless of their financial situation. All information is strictly confidential. If you need help or have questions please call the LSC office at 671-7730 or email [office@lakefrontsc.com](mailto:office@lakefrontsc.com)
