

Selection of All-Star Players

- Ages 11 and 12:
 - ★ Williamsport Team – All Major League managers submit votes for twelve players. The players with the most votes comprise the Williamsport team. In the event of a tie, a new vote is taken of the tied players. This process will continue until all 12 spots are filled. If there needs to be a final tiebreaker, the Major League VP will cast the deciding ballot. There are 5 alternates ranked in the event that elected players decline or are unable to play.
 - ★ Brandywine Team –Any player that receives a Williamsport vote and does not make the team would be placed on the Brandywine team. The Major League managers fill the remaining spots through another vote until the roster of 12 is complete. Again 5 or 6 alternates are ranked.
- Age 10 - The All Star team is comprised of the 10 year olds that play in the Major division. If there are roster spots open, the Minor A managers would vote on the remaining spots in the manner of the Major League Williamsport vote. If the number of 10-year-old players exceeds 12, all Major League managers submit votes for twelve players. The players with the most votes comprise the team.
- Age 9 - Any 9 year olds playing in the Major division are the first members of the team, with the Minor A managers voting on the remaining slots for the team.
- Age 8 - Any 8 year olds playing in the Minor A division are the first members of the team, with the Minor B managers voting on the remaining slots for the team.

Eligibility Information

- Managers and coaches must be on the league roster submitted to Williamsport at the beginning of the season in order to be eligible to manage or coach an All-Star team.
